She Loves Everybody

Chester French

Somebody call my baby
Somebody call her up real quick
I think I need my fix

Always around to please me
Always around to take control
I never feel alone
Yeah

(Chorus)
But you feel so clean
Well she craves affection
So I use protection
And I know she loves me
She loves everybody

Baby oh no
(Oh yeah)
Darling oh no
(Oh yeah)
Baby oh!

(Verse 2)
You're just a little girl now
You're just a girl who misses her dad
And all the toys that she had

Thought I could make you older
Thought I could keep you out of harm
But now you're caught in my arms

(Chorus)
But you feel so clean
Well she craves affection
So I use protection
And I know she loves me
She loves everybody

Baby oh no
(Oh yeah)

Darling oh no
(Oh yeah)
Baby oh!

(Verse 3)
Now that we've made it this far
Now that we've made a mess in the car
You ought to give it a rest

(Chorus)
But you feel so clean
Well she craves affection
So I use protection
And I know she loves me
She loves everybody

But you feel so clean
Well she craves affection
So I use protection
And I know she loves me
She loves everybody
