

# Baby Hates Me

Danko Jones

My favorite situations  
Are always sticky kinds  
I'll be the first to cast stones  
I dont let sleeping dogs lie Ill sing it from a mountain  
Just take me to the top  
Ill scream it 'til my lungs pop  
Ill stand here til I drop The feeling is leaving  
Its all gone, it's deceiving  
If we don't stop put me in a coffin  
'Cause you and I had absolutely nothing in common Baby, I know you hate me  
And you can't shake me  
You make me rock solid, hot and bothered, it don't matter  
I can shake you, yeah You used to be so special  
Now Im bored all the time  
You think the same of me too  
Just say it dont be shy The feeling is leaving  
Its all gone, its deceiving  
If we don't stop put me in a coffin  
'Cause you and I had absolutely nothing in common I used to want you, baby  
Now I dont want to, I know you hate me  
Time to start moving on, but you still crave me You just amaze me  
I used to want you, and you can change me  
Now I dont want to  
You make me rock solid, hot and bothered  
It don't matter I can shake you Ohh, baby, its been a long time comin'  
And its just the way its gotta be  
But I know this is one thing, one thing we wont fight about  
And you can put my name on the dotted line Yeah, baby, I know you hate me  
I used to want you but you still crave me  
Now I dont want to, you just amaze me  
Time has stopped moving on and you can't shake me I know you hate me  
I used to want you, and you can't shake me  
Now I dont want to  
You make me rock solid, hot and bothered  
It don't matter I can shake you, yeah
