

Very Distraughtening

Frank Zappa

Ah, that one again.
It's a little pig with wings.
I hear you've been having trouble with pigs and ponies!
It's very distraughtening. Everything in the universe is, is, is made of one element,
Which is a note, a single note.
Atoms are really vibrations, you know.
With your extensions of the big note, everything's one note.
Everything, even the ponies.
The note, however, is the ultimate power,
But see the pigs don't know that,
The ponies don't know that. You mean just we know that? Right! Merry-go-round, merry-go-round,
Tu-tu-tu-tu tu-tu-tu tu-tu-tu And they call that doing their thing.
Oh yeah? that's what doing your thing is!
The thing is to put a motor in yourself.
