

Let Me Know

[Leo Sayer](#)

are you ever gonna change your mind
will there ever be another time
you gotta let me know
I was hoping you would understand
love was never meant to be so blind
you gotta let me know
well I never had to wonder why
I've felt this way now for such a long time
and it's taken everything I have
just to
tell you how it is -- that I feel
won't you let me know
we're no strangers to this world
it's true
everytime you cry it makes me feel so blue
oh won't you let me through
take another time
another place
take this heart of mine and dry your face
oh won't you let me know
