

Bastards

Blanks 77

"Tattle-Tale" is what you are
always have friends to help you go far
people you don't know,
treat 'em all the same
bring up shit to ruin their names[Chorus:]
Had to fuck 'em over
couldn't let 'em win
you're gonna burn
for this unforgivable sin
born into money your family's filthy rich
your powerful friends
got you into the government
now it's time to fuck the people
and the state
using all the lies and stories you create[Chorus]just like the lawyers
are the politicians and the cops
using their power
to do what they want
screw the poor
'cause they can't fight back
who'd believe a man
in a cardboard shack?
