

Albany, Honey (feat. Alex Gregory)

Guy Jones

We can look back to when weâ€™re young
Say we didnâ€™t waste time
Still had love
Seem to find the ?? always gave enough
Youâ€™d say nothing but speak so loud
But your hand on my shoulder . said Iâ€™m sticking around
I knew that every day from then youâ€™d always have my love

If thereâ€™s fear on my back honey donâ€™t let go
Cos Iâ€™ll be right there holding your hand we hit that hard road
I never had you down for running
Swear weâ€™ll never feel too low
Cos Albany honey is where weâ€™re gonna find our home

I think it was the summer in 92
We packed a beat up Chevrolet and made our move
Took a road a little east past highway 35
We made an easy time, you gave a little smile
Hereâ€™s a miller and camel, lets wait for a while
Think of how far weâ€™ve come
And found a better life

If thereâ€™s fear on my back honey donâ€™t let go
Cos Iâ€™ll be right there holding your hand we hit that hard road
I never had you down for running
Swear weâ€™ll never feel too low
Cos Albany honey is where weâ€™re gonna find our home
If thereâ€™s fear on my back honey donâ€™t let go
Cos Iâ€™ll be right there holding your hand we hit that hard road
I never had you down for running
Swear weâ€™ll never feel too low
Cos Albany honey
Albany honey
Albany honey is where weâ€™re gonna find our home
