When and Where

Confederate Railroad

It's a busy day, I'm a busy man
Gotta hectic schedule and my whole week's planned
People say I'm hard to reach
But she knows how to get hold of meI can tell it's her by the way the phone rings
When she calls I drop everything
Snaps her fingers and I'm there
Hello darlin' when and whereClimbing ladders, punching clocks
Love and money it's a paradox
I'm motivated as the next guy
But a man's gotta prioritizeI can tell it's her by the way the phone rings
When she calls I drop everything
Snaps her fingers and I'm there
Hello darlin' when and whereAnytime, anyplace
Say the word and I'm on my wayI can tell it's her by the way the phone rings
When she calls I drop everything
Snaps her fingers and I'm there
Hello darlin' when and where
