Whipping Boy

Sean Watkins

Since then I never feel helpless
Recess, this mess if you do
And I find that even time well spent
Gets bent if you need it to, we doBy now I've showed you how much
I believe in the here
And now and I wish that you knewLay all you want on me
Lay all you want on me
Lay all you want on me
I'll be your whipping boyYou spilled your purse onto my bed
Searching for something for your head
Since then you never come clean
I mean you wish you only couldLay all you want on me
Lay all you want on me
Lay all you want on me
I'll be your whipping boyI can get up, I can get up, I can get up
I can get up, I can get up, I can get up
I can get up, I can get up, I can get upAnd I find that even time well spent
Gets bent if you need it to, we do, we doLay all you want on me
Lay all you want on me
Lay all you want on me
I'll be your whipping boyLay all you want on me
Lay all you want on me
Lay all you want on me
I'll be your whipping boyI'll be your whipping boy
I'll be your whipping boy
