Exploring the Blue

Luka Bloom

I go down into the water
Dive as deep as man can go
Into those dark places
Watch the underwater flowExploring the blue
Exploring the blue
Exploring the blue
Search of youHere I stand by the mountain
And I look up to the sky
Knowing it's a matter of having to climb
'Bove this place, these clouds lieExploring the blue
Exploring the blue
Exploring the blue
Search of youIt may be high, it may be low
Where I think you are
Is that's where I'll go
That's where I'll go, that's where I'll goI go down into the water
Dive as deep as man can go
