Raise the Bar

Project Dirty

I might need a parachute
I'm drunk on you
this night is crazy
We're taking off the roof
The ceiling too
and it feels so amazing
to come this far
You know who we are
Let them haters say what they're gonna say
"You know they'll never make it far
they'll never be a star"
But that was yesterdayCause tonight we're on top
We're on top of the world
and we ain't got no cares
You only got one shot
to get what you deserve
so throw it back if you dareRaise the bar
Throw your hands up
Show em why you're the baddest one in the club
Raise the bar
Fill your cup
and everybody drink to the ones that you love
raise the bar
Put your hands up
Tonight you can be anything you want
Raise the bar
To the top
and everybody drink to the ones you loveThey trying' to prove what we do
is meant to be sacred
But I'm not in the mood
for attitude
so let's just get faded
and come undone
break into a run
we do it everyday
now we gonna have some fun
don't wanna see the sun
so let the music play
Let the music play onCause tonight we're on top

We're on top of the world
and we ain't got no cares
You only got one shot
to get what you deserve
so throw it back if you dareRaise the bar
Throw your hands up
Show em why you're the baddest one in the club
Raise the bar
Fill your cup
and everybody drink to the ones that you love
raise the bar
Put your hands up
Tonight you can be anything you want
Raise the bar
To the top
and everybody drink to the ones
that are waking up
that are going all night
I can see stars
in your eyes
I'm think I'm in love
for real this time
What a crazy life
I'm waking up
We're going all night
I can see stars
in your eyes
I'm think I'm in love
for real this time
What a crazy lifeRaise the bar
Throw your hands up
Show em why you're the baddest one in the club
Raise the bar
Fill your cup
and everybody drink to the ones that you love
Raise the bar
Put your hands up
Tonight you can be anything you want
Raise the bar
To the top
and everybody drink to the ones that you love
The ones that you loveI'm waking up
We're going all night
I can see stars
in your eyes

I'm think I'm in love
for real this time
What a crazy life
