

# (I Don't Know) Interlude

[Shola Ama](#)

I don't know why  
I'm waiting for loving  
And I don't know why  
Your kiss makes me burn  
Every time I see you  
I'm longing  
For you to just stop  
Listen and learn 'Cause I don't know why  
You take my love for granted  
And I don't know why I still feel the way I do  
But baby, you know  
That there's more to love  
Than this feeling  
I can put my pride aside  
One time just for you. you  
You, you, oh yeah
