

Lies Of Hate

Soul Asylum

You make me fall from
Lies of hate
You make these walls from
Lines of a face
Nobody's watching
So why do you act like a fake You make me crawl from
Lies of hate
You wake me up from
The lines that separate And when you shine
I know how to find out about
How to get out of it
How to get out of this chase How to get out of it
How to get out of it
How to get out of this place You make me fall from
Lies of hate And when you shine
I know how to find out about
How to get out of it
How to get out of this chase How to find out about
How to get out of it
How to get out of your space How to get out of it
How to get out of it
How to get out of this place How to find out about
How to go out without
Living the lies of hate
