

Arenna Blaze Remix

Kynt

Verse I:

Come on you know you wanna play
Stop teasin me cut to the chase
I want you now
I don't wanna wait
You feelin me I'm feelin you
You're such a freak cause I'm one to
Let me tell you the things I like to do
Watchin you go down on me
Sweat drippin from cheek to cheek
Run my fingers down the small of your back
That's what makes me hot
Feel my head against the back of your throat
You try to take it til you almost choke
I'm diggin deeper I'm about to explode
That's what makes me hot

Chorus:

You know it doesn't take alot
Gotta warm it up and make it hot
Gonna give you all that I got
That's what makes me hot
Any time you want to play
Anywhere or anyway
Gonna give you all that I've got
That's what makes me hot

Verse II:

Let's take a drive back to my place
Get undressed have some wine and watch a tape
You massage me I'll massage you
Let's make it over to the bed unless you like the floor
instead
Anything you want thatâ€™s what I'll do
Caressing your beautiful face
Rubbing your nipples as I feel your heart race
Heavy breathing gotta pick up the pace
That's what makes me hot
You've gotta ride it like you've never done before

Don't fight it just let yourself go
Give me total control
That's what makes me hot

Repeat Chorus

Bridge:

I know you wanna come rock with me tonight
I know you wanna come roll with me tonight
I know you share ecstasy tonight
I know you wanna share your fantasy tonight
