

Spaceman

[Sinistar](#)

Taking me away, straight down
Talking about the way that you fucked me
You thought I was sick, look out
Every thing's the same when I make a sound
What do I gotta be to make it happen now
You're gonna see
The rules come crashing down
Enter, the spaceman
He's only half a man
Like a token black
Take up the slack
Talking about the way that you used me
