Change The Man

Howard Jones

Don't talk to me about ban the bomb
Don't ask me what side I'm on
Replace the system with one just the same
Don't you realize we are all to blame?It's so easy as an arm chair blamer
Get off your seat and make a personal change, sir
Can't change the system without smashing it down
Inside route personal revolutionChange the man
Change the man
Rip out the root
Let's get rid of this insanityWhen the mothers had told the kids straight
When the fathers felt no more hate inside
When a man walks down the street without fear
Then things must change, whoa, whoa
And it's not too late toChange the man
Change the man
