Will You Marry Me

Jellyfish

I want to do this thing
I don't want no drama, mama
It's love I bring
Ooh, wait a minute, you're out of sight
Girl, I wanna give it to you
Let's make it right
You are my life and my passion
That never goes out of fashion
I want to know will you marry me?
Hey baby, will you wear my ring?
You're a queen and I've been waiting
To be a king
Baby, baby, let's keep it tight
If you want to get right to it
Could be tonight
You, you are my life and my passion
That never goes out of fashion

I wanna will you marry me? Ooh
Come on, baby
Keep it tight, I know it's right
I wanna have you always in my life, hit it
Oh yeah, no, I like that
Do that one more time
You are my life and my passion
That never goes out of fashion
I wanna know will you marry me?
You are my favorite attraction
You give me real satisfaction
I wanna know will you marry me?
You are my life and my passion
That never goes out of fashion
I wanna know will you marry me?
