

# Number One

## Gyptian

I heard you say to me you wanna be my number one  
So let's talk about it, sister, now the game has just begun  
So if you wanna be my number one,  
If you wanna be my number one  
Let me know your future plans

I heard you telling friends that you are my number one  
But not yet, my little sister, now the game has just begun  
So if you wanna be my number one,  
if you wanna be my number one  
Let me know your future plans  
Let me know

Just try to do the things good to me  
'Cause what is to be got to be  
So if you wanna be my number one, tell me,  
if you wanna be my number one  
Let me know your future plans, won't you sister

I heard you say to me you wanna be my number one  
So let's talk about it, sister,  
Now the game has just begun  
Just begun  
So if you wanna be my number one,  
if you wanna be my number one  
Let me know your future plans  
Let me know  
I just wanna know  
If you wanna be my number one  
My number one

Never ever hurt this man,  
and you'll be my number one

If you wanna be my number one  
If you wanna be my number one  
Let me know your future plans  
Let me know  
Let me know  
If you wanna be my number one

Number one  
Let me know
