

K.Y.N.

Warhead

my apartment's 'round the block
downtown there's not much you've got
it was my last day at work
don't ask me if it does hurt I've got to walk
'cause they damaged my car
last week at a slutty bar
oh, the rent I'm not able to pay
and my wife kicked me today do yourself a good
in your neighbourhood
march along the floor and
KILL YOUR NEIGHBOUR!
KILL YOUR NEIGHBOUR! people nextdoor drive me insane
what is their intention, what is their gain
they're disturbing me
when they're passing my way
and it hurts
when they've got nothing to say there's nobody who's really good
out there in my neighbourhood
a man hurts his wife and children cry all day
I think I better blow 'em all away! do yourself a good... these were times I remember well
things that I can hardly tell
I do repent and I have to pay
as the priest and me
are on my last way...
