

# We Are So Last Year

## Hawthorne Heights

We're falling faster  
This is the last year  
Just a few more hours  
Until we are all alone This never happens  
Changing with fashion  
Just a few more hours  
Until we are all alone I wish I could have known you better  
I should blame it on the weather  
This was over from the start Does it even matter?  
Our situations getting worse Sleep in  
(Sleep in)  
Sleep well  
(Sleep well) With this life  
(This life)  
We're set to fail I just wanted you to know  
I think about you every night  
When I fall asleep You are in my dreams  
And just like in a movie  
The one you want to see  
With a happy ending This dead letter written on black paper  
It never found your eyes  
Instead of love  
(Instead of love)  
She only saw dollar signs Sleep in  
(Sleep in)  
Sleep well  
(Sleep well) With this life  
(This life)  
We're set to fail I just wanted you to know  
I think about you every night  
When I fall asleep You are in my dreams  
And just like in a movie  
The one you want to see  
With a happy ending With this life  
(This life)  
We are set to fail I just wanted you to know  
I think about you every night  
When I fall asleep I just wanted you to know  
I think about you every night

When I fall asleep You are in my dreams  
And just like in a movie  
The one you want to see  
With a happy ending
