## We Are So Last Year

## **Hawthorne Heights**

We're falling faster

This is the last year

Just a few more hours

Until we are all alone This never happens

Changing with fashion

Just a few more hours

Until we are all aloneI wish I could have known you better

I should blame it on the weather

This was over from the startDoes it even matter?

Our situations getting worseSleep in

(Sleep in)

Sleep well

(Sleep well)With this life

(This life)

We're set to failI just wanted you to know

I think about you every night

When I fall asleepYou are in my dreams

And just like in a movie

The one you want to see

With a happy ending This dead letter written on black paper

It never found your eyes

Instead of love

(Instead of love)

She only saw dollar signsSleep in

(Sleep in)

Sleep well

(Sleep well) With this life

(This life)

We're set to failI just wanted you to know

I think about you every night

When I fall asleepYou are in my dreams

And just like in a movie

The one you want to see

With a happy ending With this life

(This life)

We are set to failI just wanted you to know

I think about you every night

When I fall asleepI just wanted you to know

I think about you every night

When I fall asleepYou are in my dreams
And just like in a movie
The one you want to see
With a happy ending
