How's That Workin' For Ya?

Blue Sky Riders

You got the obstacles out of the way
All of that true love was just holding you down
You said you could ride than let you someday
Alone at the top of the world
Well look at you now[Bridge]
Congratulations, youve got what you wanted, uh
Must be amazing, living the dream
No one to hold you down,
No one to hold, wild and free
Thats what you said you had to be[Chorus]
Well hows that working for you?
Hows that working for you
Hows that working out?Told you to dont make a laugh of the road
You never looked back when she walked out that door
She ...listen and left you alone
Now that old ball and chain, she dont need you no more[Bridge]
Congratulations, youve got what you wanted, uh
Must be amazing, living the dream
No one to hold you down,
No one to hold, wild and free
Thats what you said you had to be[Chorus]
Well hows that working for you?
Hows that working for you
Hows that working out?[Guitar solo]How youre living it up
Just like you planned
If you wanted each breath that you get
For your ...and regret
You must be a happy man[Bridge]
Congratulations, youve got what you wanted, uh
Must be amazing, living the dream
No one to hold you down,
No one to hold, wild and free
Thats what you said you had to beIs it everything it seemed
You got what you wanted
Is that what youre telling?[Chorus] x 2
Well hows that working for you?
Hows that working for you
Hows that working out?
