

# My Favorite Memory

## The Cox Family

Once in life, you'll meet someone who gives to you  
The reason for that life is what some love can do  
So now I'm armed for troubled time with all I knew  
For I love you, my favorite memory You gave me something time could never take from me  
A light that guides me when life's dark and I can't see  
But when I need a hand to hold, you'll comfort me  
You'll always be my favorite memory Your lips were sweet, your arms were warm, I tasted light  
You'll have my heart all your dreams each night  
Till something comes up yonder now and I must sleep  
You'll always be my favorite memory So now, don't cry, it's not goodbye, it's just so long  
I'll take you with me where I travel from now on  
But when I close my eyes at night and go to sleep  
You're lying there, my favorite memory
