He Believes In Time Machines

Kill Hannah

arrow kid runs by
catch one in your side
is this the end?
we should die
let us go
life is all a film
let the bullets fly
truth, lies, a film
it's like little bees

let them sting
he believes in time machines
he believes in time machines
he believes in time machines
he believes in time machines
he believes in time machines
he believes in time machines
