

# Hotel Arizona

## Wilco

Hotel in Arizona  
Made us all wanna feel like stars  
Rental cars with tinted windows  
Leave another number for me Even if I make it through  
That's just something  
That I have to get used to  
That's just something  
I have to get used to I feel some connection  
Between you and me  
Well I guess there's some direction  
Maybe you can't see Even at the interview  
That's not something  
That I'm gonna get used to  
That's not something  
I'm gonna get used to Hello, can you hear me?  
Hello, that's all there is, that's all there is I guess all this history  
Is just a mystery to me  
One more worried whisper  
Right in my ear
