Deadlock

Takida

I will speak of you gently - even after the fight
I will speak of you gently - when red evils are about to rise
I will speak of you gently - flames appear in your eyes
speak of you gently - another deadlock in the nightA bad mood whisper inside - fear shine through my eyes
the pride is shut in confine - it's a struggle everyday
this quiet filled with cry - wrong opinions will slowly dieBut, I will speak of you gently - flames appear in your eyes
I will speak of you gently - another deadlock in the night
coward standing small - stand up for your believes
respect yourself in hard timesBut, I will speak of you gently - even after the fight
I will speak of you gently - when red evils are about to rise
I will speak of you gently - flames appear in your eyes
I speak of you gently - another deadlock in the nightTonight is the loneliest of nights - and I will lie
hold on to night - throwing? with the firefind good strength and the opening deceive
Hold on tonight!
But, I will speak of you gently - even after the fight
I will speak of you gently - when red evils are about to rise
I will speak of you gently - flames appear in your eyes
I speak of you gentlyI will speak of you gentlyI will speak of you gently - another deadlock in the night
