Don't Give Up On Us

Sarah Mclachlan

Love has taken me for a fool
Gotten out in time to save himself
Should've known better but I let things slide
I took you for granted that you'd always be the one for me
And baby I stopped trying
Oh baby, don't give up on us
I know your heart is full of doubt, you don't need to be without
These loving arms will hold you through your darkest hour
I'll be using all my power so I can reach you
Oh my love, don't give up on us
Am I living alone here or have I turned to dust?
It hurts, it hurts to wait for just a little love
You must give me a sign love, can't you see me standing here?
Alive and well with all the hope you'll be the one for me
And baby I'll keep trying
Oh baby, don't give up on us
I know your heart is full of doubt, you don't need to be without

These loving arms will hold you through your darkest hour
I'll be using all my power so I can reach you
Oh my love, don't give up on, don't give up on, don't give up on us
Maybe the way out is here
It went where it all begins
We can't go on living on a cloud
We'll never find our way home
Oh, let me reach you
Oh my love, come on let me in
Oh, let me hold you
Oh my love, don't give up on us
Oh, let me reach you
Oh my love, come on let me in
Oh, let me hold you
Oh my love, don't give up on us
