

# Hungry Eyes

## NONONO

I'm a song, I'm a song  
I can't be read, I can't be read  
I can't be drawn  
In the radio  
I shine it off Cause it's on Friday, it's on Friday  
I wanna leave  
I wanna fly  
You know I feel like my place  
It's right around you We got hungry eyes  
We got hungry eyes  
We won't stop to find the one right guy  
We won't crash out, no  
We won't leave the focus after all We got hungry eyes  
We got hungry eyes  
We won't stop to find the one right guy  
We won't crash out, no  
We won't leave the focus after all And I'm a bird, I'm a bird up in the trees  
Because the telephone lies  
We will fall of it  
And it's time, it's time I screw the clock But if it's not a good lie  
I'll smell, won't I? We got hungry eyes  
We got hungry eyes  
We won't stop to find the one right guy  
We won't crash out, no  
We won't leave the focus after all We got hungry eyes  
We got hungry eyes  
We won't stop to find the one right guy  
We won't crash out, no  
We won't leave the focus after all And love keeps us  
Won't let go  
Won't stop for the other hand  
And all the dreams are aside  
We will go and slowly fade it We got hungry eyes  
We got hungry eyes  
We won't stop to find the one right guy  
We won't crash out, no  
We won't leave the focus after all We got hungry eyes  
We got hungry eyes  
We won't stop to find the one right guy

We won't crash out, no  
We won't leave the focus after all
