# Ride

## Magnapop

With your big star, shining
Light the way
So gently in the darkAnd my window frames
My window panes
Too heavy to be numb
My hands are tiedTouch his face with care
His force was fair
The TV's scared
Of popular sentimentWatch the way he walks
His simple beat
My nerves are shook nowChange your mind
Feel it make it stronger
Turn it onSing pale blue eyes
Rest upon my soul
Forgotten there
Catch a rideCatch a ride again
Behind the curtains
Time will bend
And try to slip awayUp the chimneys, deep
The church is steep
It's safe to keep
The dirt will flyOff to Oz, I go
With baby's hands
So nicely placed nowChange your mind
Feel it make it stronger
Turn it onSing pale blue eyes
Rest upon my soul
Forgotten there
Catch a ride
