The Whitest Boy Alive

Hey you, we just got started, you can't end this now
Hey you, we just got started, you can't end this now
You've paid your dues you're free, of what are you afraid?
You've paid your dues you're free, of what are you afraid?Taking on responsibility knowing it will weigh you down
Freedom is a possibility only if you're able to say noPeople in northern Europe since medieval times
We found it hard to deal with when our dreams come true
As if happiness exists in the world at a fixed amount
And if you feel up somebody somewhere else feels downTaking on responsibility knowing it will weigh you down
Freedom is a possibility only if you're able to say no
Taking on responsibility knowing it will weigh you down
Freedom is a possibility only if you're able to say no
