

More

Virgos Merlot

More waits outside the door
Wondering what it's waiting for
Less is running up the score
Gotta find out why I don't have moreThe perfect sky, a twitching eye
Needed only one thing to get by
Let it hide, unto the side
Tried to do it in but it won't dieDon't be seen, keep it clean
Remembering the something less prestien
Let it eat, fall at it's feet
Like the masters bow to the color greenI look, gift horse, straight in the mouth
And I give, don't get, it's all aboutMore waits outside the door
Wondering what it's waiting for
Bliss is running off the score
Gotta find out why I don't have moreI always knew, to pull it through
I had to make believe is it just a few
A heart of steel, is just as well
Only thing I saying is just a flukeI didn't know, how to make it go
Only do it worse, singin' natural
Starts to fail, another nail
The closing of the casket and my vaill look, gift horse, straight in the mouth
And I give, don't get, it's all aboutMore waits outside the door
Wondering what it's waiting for
Less is running up the score
Gotta find out why I don't have moreMore waits outside the door
Wondering what it's waiting for
Less is running up the score
Gotta find out why I don't have moreMore waits outside the door
Wondering what it's waiting for
Less is running up the score
Gotta find out why I don't have more
