

# Will O the Wisp

## Opeth

[Verse]

When you're tired of waiting  
And time is not on your side  
When you're tired of hating me  
You no longer want to hide[Pre-Chorus]  
You're stuck to the failures of your life  
Marred with the sorrows of your strife[Chorus]  
And time it waits for no one  
It heals them when you die  
And soon you are forgotten  
A whisper within a sigh[Verse]  
When there's trouble admitting  
That you have been wrong all along  
When the words you have written down  
Reads "Everything is gone"[Pre-Chorus]  
You're stuck to the failures of your life  
Marred with the sorrows of your strife[Chorus 2x]  
And time it waits for no one  
It heals them when you die  
And soon you are forgotten  
A whisper within a sigh[Verse]  
When you smother your friendships  
And take much more than you need  
When you can't keep a secret to yourself  
And points to the source of the deed[Outro]  
You're stuck to the failures of your life  
Marred with the sorrows of your strife  
And you can never find your satisfaction  
When you can't outgrow your false distractions  
You know your soul is weighed on the silver scale  
Of deceit and lies
