

You Be My Everything

Steve Wariner

The competition's getting tough, good enough ain't good enough
Lately I've been workin' way too hard
Go ahead and take my hand, forget about the rainbow's end
I'd have it all if you were in my arms
So you be my everything
And I'll be the one who loves you
I don't want you to just wear my ring
I want you to be my everything
When you wish upon a star, what you dream is what you are
You've got to find your true identity
I don't want no quick success, the bottom line is happiness
What I need is you right here with me
So you be my everything
And I'll be the one who loves you
I don't want you to just wear my ring
I want you to be my everything
I've been all over the world
And I've only learned how much I want you girl
You be my everything
And I'll be the one who loves you
I don't want you to just wear my ring
I want you to be my everything, ooh
