

# Break

## Gob

I'm playing cool and swell  
But I've been through all hell  
Planin' that could break think  
And then forget about it  
Better if it rings out  
I'm acting through it all  
Making up excuses  
Running from your rights  
Drowning in your sight  
Flooded in our blood  
Underneath your water  
Bound and gagged I fight  
Gotta get undone  
Cause I don't wanna break out  
I don't wanna fake  
I don't wanna break  
I don't wanna fake  
I just wanna get out  
It's closing in somehow  
Pressed up against me now  
Get under my skin take a knife and cut it out  
I just wanna get it out  
The walls have closed somehow  
Making up excuses  
Running from your rights  
Drowning in your sight  
Flooded in our blood  
  
Underneath your water  
Bound and gagged I fight  
Gotta get undone  
Cause I don't wanna break out  
I don't wanna fake  
I don't wanna break  
I don't wanna fake  
I just wanna get out  
Hey damn!  
Turning blue and no surprise  
I'm not breathing when I'm not inspired

Making up excuses  
Running from your rights  
Drowning in your sight  
Flooded in our blood  
Underneath your water  
Bound and gagged I fight  
Gotta get undone  
Cause I don't wanna break out  
I don't wanna fake  
I just wanna get out  
I don't wanna break  
I don't wanna fake  
I just wanna get out
