

# Solid Gold

## Vhs Or Beta

I wanna skin, you're the rising sun  
Oh baby, you got that Solid Gold  
And I know how to get things done  
Come and live with me if you got no place to go

Well I'm sure I could find some way  
To call them doggies out to play  
You really got me out on my hair  
Oh yeah, gotta my thing red for you

You really got the rising sun  
You and your Solid Gold, yeah  
You gotta be the only one  
That can always make me groan, yeah

Now there's very few things in life  
That can ever stop me cold  
And heaven just comes on down  
When you take off your clothes

Well I'm sure I could find some way  
To call them doggies out to play  
You really got me out on my hair  
Oh yeah, gotta my thing red for you

You really got the rising sun  
You and your Solid Gold, now, oh baby  
You gotta be the only one  
That can always make me groan, oh yeah, yeah, yeah

Goddamn, you're a sight to see  
Ain't never felt this before, yeah, yeah, yeah, yeah  
No money comes back to me  
Humping that Solid Gold, hey

I'll never be round you or floating  
No place that I'd rather be  
The primal forces of nature  
If you could see what I see

You really got the rising sun  
You and your Solid Gold, baby  
You gotta be the only one  
That can always make me groan, yeah

Goddamn, you're a sight to see  
Ain't never felt this before  
No money comes back to me  
Humping that Solid Gold, yeah
