How In The World (Suave Suarez Remix)

Family Force 5

Stepping out on my own
The world was too big to face alone
The mission was clear
To find something sincere, a love unknownI searched through all the universe
My heart crash-landed on the earth
I gave up on my love pursuit
Until I discovered youHow in the world did I find someone like you
Why in the world after all that we've been through
If you weren't here with me right now, then I don't know what I'd do
In all of the world I found my heart in youGetting ready for take-off
We're gonna break-off, get out of here
We'll be walking on air
We're gonna tear through the atmosphereFaster than the speed of sound
Gravity can't hold us down
When we touch we elevate
Let's just float awayThis is the end of the life we once knew
How in the world did I live without you
This is the birth of a love so true
How in the world did I live without you
