Happy House

Itchy Worms

This is the happy house, we're happy here in the happy house
Oh, it's such fun, fun, fun
We've come to play in the happy house
And waste a day in the happy house, it never rains, never rainsWe've come to scream in the happy house
We're in a dream in the happy house
We're all quite sane, sane, sane
This is the happy house-we're happy hereThere's room for you if you say "I do"
But don't say no or you'll have to go
We've done no wrong with our blinkers on
It's safe and calm if you sing along, sing along, sing alongThis is the happy house, we're happy here in the happy house
To forget ourselves and pretend all's well
There is no hellI'm looking through your window
I'm looking through your window
