

# Happy House

## Itchy Worms

This is the happy house, we're happy here in the happy house  
Oh, it's such fun, fun, fun  
We've come to play in the happy house  
And waste a day in the happy house, it never rains, never rains We've come to scream in the happy house  
We're in a dream in the happy house  
We're all quite sane, sane, sane  
This is the happy house-we're happy here There's room for you if you say "I do"  
But don't say no or you'll have to go  
We've done no wrong with our blinkers on  
It's safe and calm if you sing along, sing along, sing along This is the happy house, we're happy here in the  
happy house  
To forget ourselves and pretend all's well  
There is no hell I'm looking through your window  
I'm looking through your window
