

Little Piggy (Rob Zombie)

[Rob Zombie](#)

A little way back where the end meets the road
Turn your back and I might reload
A bullet in your head and one for your brain
Be another one face down in the rain Little piggy, little piggy what do you see?
You're lookin' at death when you're lookin' at me
Little piggy, little piggy what should you do?
I am the devil and I'm comin' for you The moon won't sink and the sun won't shine
I season my blood with turpentine
Everything is true when you know what's real
A [unverified] black dog gettin' drunk on the wheel Little piggy, little piggy what do you see?
You're lookin' at death when you're lookin' at me
Little piggy, little piggy what should you do?
I am the devil and I'm comin' for you I crawl on the ground and I start to bleed
I'm the one you dream about when you sleep
(Eyes of death?)
And bone in blood
Your lungs are freakin' out when you're drownin' in the mud Little piggy, little piggy what do you see?
You're lookin' at death when you're lookin' at me
Little piggy, little piggy what should you do?
I am the devil and I'm comin' for you
