

Phobic

Plumb

I watched you sit alone
I watched you cry your eyes out
Now tell me what you've done

Is it so bad that

I would shut you out
And leave you here alone

Yes, I saw what you did
I was right there with you

I won't let you sink

No, I forgive you

Phobic

Don't be

Grace needs a little more freedom

Phobic

Don't be

Love needs room to breathe

I have watched you grow
And I've stood in your shadow

I've never walked away

I hung the stars and

I hold your heart

So, don't ever be afraid

Yes, I know when you breathe

And I feel when you need

I won't let you sink

No, I forgive you

Phobic

Don't be

Grace needs a little more freedom

Phobic

Don't be

Love needs room to breathe

You can be healed

You can be free

You can know peace

Never be afraid again

Phobic

Don't be

Grace needs a little more freedom

Phobic
Don't be
Love needs room to breathe
Never be afraid
Never be afraid
He's here
