Nights so dark
Nights so loud
Nights so high
Night forever
Feel your love
And baby, like a breeze You're in my mind
You're in my heart
You're here, you're with me
You're here, you're with me now
Feel your love
Baby, like a breeze I hold it for a minute
A minute lasts an hour
I know that I can change it
I know that I can still
I kno-o-o-o-ow Feel for you
I feel for you
I feel for you
I feel for you I hold it for a minute
A minute lasts an hour
I know that I can change it
I know that I can still
I kno-o-o-o-ow Feel for you
I feel for you
I feel for you
I feel for you How...
Why you got through
How...
Why you lay your bar so low Feel for you
I feel for you
I feel for you
I feel for you
