MAC MILLER

[Intro]

Clarity.

Clarity.

Clarity.[Verse 1: Mac Miller]

Figure all this out, I aint gonna take a charity
Marry me, wish everyone could shake and play the tambourine
Perfect, I know I love you I aint tryna let those words slip
Pure bliss, I know that we would stay together, we in cursive.
Infatuation, when every single move you make is fascinatin
Gravitatin, towards anything that gives a sense of happiness
Activist, vove activeness

Sendin my love for girls who got some cuts at their wrists
Hope you found what you lookin for, I hope you found what you lookin for[Hook]

You take away the pain and I thank you for that
If I ever get the chance, bet Im paying you back
Ima be waitin for that (x2)[Verse 2: Mac Miller]

Misery, you represent love, you the epitome
So wish for me, Ill come out of nowhere, your epiphany
Disconnect, from everybody who dont understand my vision yet
In a jet, is where my mind is so I light another cigarette
To calm me down, so calm me down
Everybody who can see me now is not around, choppa down
Busy today, but can you tell me how tomorrow sounds?
In between, purgatory aint as bad as it would seem to be
Live a dream, thats so cliché but I cant tell you what it means to me
