Collection

The Filthy Violets

Just watch the wrecking balls
Razing last year's crown
Burning bright like the best of falls
And so audible the sound
Just watch and watch
Stare and stare
Shed a tear and pretend to care
Oh to care
Shoved you face down in the muck
They said goodbye but not good luck
Oh just for a dime
I'd be obliged to watch you waste my time
My time
These statues they don't mean a thing
Your voice is gold my love
Please sing
My monuments they go unseen
I built them up just to see you dream
Oh just to see you dream
To see you dream
All rivers to the sea
And all roads back to me
Still just for a dime
I'd be obliged to watch you waste my time
My time
These statues they don't mean a thing
Your voice is gold my love
Please sing
My monuments they go unseen
I built them up just to see you dream
Oh just to see you dream
To see you dream
