

# Lost

## Within Temptation

My hope is on fire  
my dreams are for sale  
I dance on a wire  
But don't want to fail her I walk against the strain  
Fight for what I believe in  
I run towards the end  
Trying not to give in She's lost in the darkness fading away  
I'm still around here screaming her name  
She's haunting my dreamworld trying to survive  
My heart is frozen I'm losing my mind  
Help me I'm buried alive!  
Buried alive! I'm burning the bridges  
And there's no return  
I'm trying to reach her  
I feel that she yearns I walk against the strain  
Fight for what I believe in  
I run towards the end  
Trying not to give in She's lost in the darkness fading away  
I'm still around here screaming her name  
She's haunting my dreamworld trying to survive  
My heart is frozen I'm losing my mind  
Help me I'm buried alive!  
I'm buried alive! I tried to revive what's already drowned  
They think I'm a fool who can't realize  
Hope plays a wicked game with the mind  
'cause I thought that love would bind  
I cannot revive what's already drowned  
She won't come around She's lost in the darkness fading away  
I'm still around here screaming her name  
She's haunting my dreamworld trying to survive  
My heart is frozen I'm losing my mind  
Help me I'm buried alive!  
Buried alive!
