Trouble

Skindred

Don't big up yourself and gwarn like you're a big timer
Don't big up yourself and gwarn like you're a big timer
Don't big up yourself and gwarn like you're a big timer
Tell this fool in my face I don't need enemies so I'm asking you to move back a little,
Why you bigging up your chest and you're thinking that you're tough
Don't you know that every bone is brittle?
Everything will be fine if you just cool out yourself and don't do no crime
Now I'm asking you to move mate! Step it back a little, step back a little
Warning
Explosive exhibition of brutality
Explosive exhibition of...
Trouble's what you want then you're gonna get it
Trouble's what you seek do you really need it?
Trouble's what you want then you're gonna get it
Trouble's what you need then you will receive it.
Don't big up yourself and gwarn like you're a big timer
Why so close up to me, dangerous place to be and you're rocking halitosis a little
Do you think I wear a vest, putting me to the test?
You're gonna get yourself in a pickle
Now you're over the line! Something's ticking and yoot man you're out of time
Now you're taking the piss mate! Step it back a little, step back a little
Warning

Explosive exhibition of brutality
Explosive exhibition of...
Trouble's what you want then you're gonna get it
Trouble's what you seek do you really need it?
Trouble's what you want then you're gonna get it
Trouble's what you need then you will receive it.
Well how long dem ah try come and try test we out
We came fe warn dem yes we come fe warn dem
Well how lond de baldhead boy dem ah try test we out
We come fe warn dem yes we come fe warn dem
Explosive
Why so close up to me dangerous place to be
I don't wanna make war on no enemies
Why you bigging up your chest and you're thinking that you're rough
Explosive brutality
Trouble's what you want then you're gonna get it

Trouble's what you seek do you really need it?
Trouble's what you want then you're gonna get it
Trouble's what you need then you will receive it.
Trouble's what you want then you're gonna get it
Trouble's what you seek do you really need it?
Trouble's what you want then you're gonna get it
Trouble's what you seek do you really need it?
