

# Songs I Can't Listen To

## Neon Trees

There's a song that I love  
That you once played for me  
It had all the right chords  
And a sweet melody  
It was back when we started  
When there was mystery  
Now they've all been erased  
On my music machine

And it's all because of you  
I got a list of songs I can't listen to  
And it's all because we're through  
I got a list of songs I can't listen to

And do you still sing along  
When you're all by yourself?  
Or do you switch to the next one  
Sick for somebody else?  
And when you call don't forget  
How the song kept us warm  
You would dance on my bed  
I would lay in your arms

And it's all because of you  
I got a list of songs I can't listen to  
And it's all because we're through  
I got a list of songs I can't listen to

And I wish the music didn't play forever  
Cause I'm feeling like a broken record  
And I wish the music didn't play forever  
Cause I'm feeling like a broken record

And it's all because of you  
I got a list of songs I can't listen to  
And it's all because we're through  
I got a list of songs I can't listen to
