

# Hollow Again (Edit) [New Eq]

## Project 86

Somehow I lost my way  
And now its clear to me  
All that I fought so hard to keep  
Is all I had to leave I know you cant hear me  
And you wont believe me  
But there is something I must say here  
Before I fade away This is the world ends again  
This is the world ends again  
This is the world ends again  
This is the world ends Forever we will be hollow  
Forever we will be  
Forever we will be hollow  
Hollow again Forever we will be hollow  
Forever we will be  
Forever we will be hollow  
Hollow again So Im left here waiting  
So long Im contemplating  
And now I know how it is  
But now its far too late This is the world ends again  
This is the world ends again  
This is the world ends again  
This is the world ends Forever we will be hollow  
Forever we will be  
Forever we will be hollow  
Hollow again Forever we will be hollow  
Forever we will be  
Forever we will be hollow  
Hollow again How will we open the eyes of the dead  
When we are hollow, hollow? And all along here I was told  
By fallen men in their charade  
That we could find a hope inside  
The safety of this empty place This is the world ends again  
This is the world ends again  
This is the world ends again  
This is the world ends Forever we will be hollow  
Forever we will be  
Forever we will be hollow  
Hollow again Forever we will be hollow  
Forever we will be

Forever we will be hollow  
Hollow againForever we will be hollow  
Forever we will be  
Forever we will be hollow  
Hollow againForever we will be hollow  
Forever we will be  
Forever we will be hollow  
Hollow again
