

Young Boy

Ali Tomineek

(Intro)

Yeah

Ladies and gentlemen

Yo yo yo yo

My name is ali tomineek

But honestly you can just call me ali

Check it out

Just a young boy

From a hot city

I said whats up are you down

come and talk to me

Ay rock with me

And we can roll

While your speakers blow

I hope it ease your soul

I hope you reach your goals

I think you need to know

Anythingâ€™s possible

Only if you believe it though

This the type of vibe that you ride with

When you just trying to cut loose and feel wildless

Counted up all the rappers

And I made an entire list

Got excited quick

Figured out I wasnâ€™t inside of it

I ainâ€™t a rapper

Boy I frame music

I put my brain to it

Iâ€™m stedy doing what they ainâ€™t doing

Ainâ€™t a thing to it

When you free your mind

I wanna see you fly

We lucky to be alive

And when you realize

Your life is real nice

You gonna see the whole world starts to realign

Make you wanna grove

Canâ€™t sit still

Music up whipping down lichfield

(Bridge)

If you feelinâ€™ how iâ€™m feelinâ€™
Just rock with me
Iâ€™m just a young boy from a hot city

(Chorus)

When the sun is gold
And the sky is blue
If you wanna roll
Come and slide through
And the bad girls
Wear a sundress
And the sky change color when the sun set
Been this way since i was a young boy(X3)

Just a young boy

From a hot city

Leading the people from evil

I feel like god sent me

I feel like walt disney

I took my world and made it animated

My brain imagination is underrated

Iâ€™m too unstable

I keep changing on them

You canâ€™t define him

Thatâ€™s why you canâ€™t put a label on him

Independent like baby mommas

Without they they baby fathers

Independent as my daddy

When he tried to raise me proper

So go ahead and shine itâ€™s your time now

You gonna find out they can never put your light out

Wow and when they try tell them pipe down

Wow the only time that exists is right now

I was a young boy

But I done grew a lot

Live and learn

Never let them tell you what you are not

(Bridge)

If you feelinâ€™ how iâ€™m feelinâ€™
Come and rock with me

I'm just a young boy from a hot city

(Chorus)

When the sun is gold

And the sky is blue

If you wanna roll

Come and slide through

And the bad girls

Wear a sundress

And the sky change color when the sun set

Been this way since i was a young boy(X2)

Just a young boy from a hot city
