Indestructible

Matthew Good Band

Died in a motor crash I came back for you The perfect version of myself Tomorrow we start again Tomorrow came and wentI'm indestructible, how I'm indestructible I'm indestructible, how I'm into, I'm in twoWe won't say a thing While you give your life away Give your life away, not a thing We won't say a thing While you give your life awayDied in an amusement park accident I came back for you So you wouldn't be alone And if I go away again You can have my stereoI'm indestructible, how I'm indestructible I'm indestructible, how I'm into, I'm in twoWe won't say a thing While you give your life away Give your life away, not a thing We won't say a thing While you give yourI'm indestructible
