Best I Can

Juke Joint Gamblers

Tonight I feel like the world won't miss me
So much to say but there's no one listening
If we're alone are we all together in that
I threw a penny in a well for wishing
And prayed for all the things I think I'm missing
A little time is all I really need
I am doing the best I can with everything I am
Don't you know nobody's perfect
Do you understand how hard I'm trying
To do the best I can, the best I can
A second chance to give you something
It takes a lifetime to come from nothing
I refuse to believe in running away, no
I am doing the best I can with everything I am
Don't you know nobody's perfect
Do you understand how hard I'm trying for you
I am doing the best I can with everything I am
Don't you know I think you're worth it
Do you understand how hard I'm trying
To do the best I can, the best I can
I gotta picture of what matters
And I keep it close to my heart
It's a little faded but so am I
'Cause I am doing the best I can with everything I am
Don't you know nobody's perfect
Do you understand how hard I'm trying for you
I am doing the best I can with everything I am
Don't you know I think you're worth it
Do you understand how hard I'm trying
To do the best I can, the best I can
The best I can, the best I can
And I'm doing, oh, I'm doing the best I can, oh
I am, I'm doing the best, oh, the best I can
Oh, the best I can, oh, I keep doing, keep trying
