Loved By You

Taffari

Do I look different?
Won't be surprised if I did
Cause it isn't that often
That someone affects me quite like this
And there's only one to blame
That I've been all rearranged
And if it's showing on my face
That's because

Somebody loves me
More than I thought was possible
Somebody's changed me
And it's you that's responsible
You gave me your heart
Don't need anymore evidence
That I'm loved

Somebody gets me
And it's not just coincedence
Somebody's for me
And it makes all the difference
You gave me your heart
Don't need anymore evidence
That I'm loved by you

There's a change for a better
A change for good
I'm changed for the better
I am changed for good
The world's looking sunny
Cause that's what you do to me

Somebody loves me
More than I thought was possible
Somebody's changed me
And it's you that's responsible
You gave me your heart
Don't need anymore evidence
That I'm loved

Somebody gets me
And it's not just coincedence
Somebody's for me
And it makes all the difference
You gave me your heart
Don't need anymore evidence
That I'm oved by you

I'm loved by you, Oh
